## PROFESSIONAL SUMMARY

Aspiring Python Full Stack Developer with a strong foundation in HTML, CSS, JavaScript, Python, Django, and SQL. Experienced in developing responsive web applications and backend systems using Django Framework. Skilled in building full-stack projects, database integration, and version control using Git. Passionate about solving real-world problems through technology and eager to contribute to innovative software development teams.

## EDUCATION

|                                                                               |                            |
|-------------------------------------------------------------------------------|----------------------------|
| <b>Mother Theresa Institute of Engineering and Technology, JNTU Anantapur</b> | <b>Aug 2025 - May 2027</b> |
| MCA (Master of Computer Applications)                                         | 7.5 CGPA (Upto 1 sem)      |
| <b>Mother Theresa Degree college, Palamaner</b>                               | <b>Sep 2022 - May 2025</b> |
| BCA (Bachelor of Computer Application)                                        | 80%                        |
| <b>Board of Intermediate Education, AP</b>                                    | <b>Jul 2020 - Mar 2022</b> |
| BI.P.C                                                                        | 68%                        |
| <b>Board of Secondary Education, Ap</b>                                       | <b>Jun 2019 - Apr2020</b>  |
| SSC                                                                           | 92%                        |

## KNOWLEDGE PREVIEW

Good understanding of Python programming concepts including OOPs, data types, loops, and control flow.

- Proficient in HTML, CSS, and basic JavaScript for developing responsive web pages.
- Basic knowledge of backend development using Python and working with databases (SQL).
- Familiar with Django Framework, including MVC/MVT architecture, URL routing, templates, models, views, and form handling. Along with development tools such as VS Code and version control using Git.

## PROJECTS

- Title:** Hostel Management System **Apr 2026 - May 2026**  
**Description:** Built a Hostel Management System using **Django, SQLite, HTML, CSS, JavaScript, and Jinja Templates** for managing student records, room allocation, attendance, complaints, and fee tracking. Developed secure authentication and an administrative dashboard for efficient hostel operations.
- Title:** Tasty Recipes **July 2025 – Aug 2025**  
**Description:** Developed a recipe-sharing web application that allows users to **view, add, edit, and manage recipes**. Implemented recipe details including ingredients and step-by-step cooking instructions, providing a user-friendly interface for recipe discovery and management.

## TECHNICAL SKILLS

- **Programming Languages:** Python, Java
- **Web Technologies:** HTML, CSS, JavaScript, Django
- **Databases:** SQLite
- **Tools & IDEs:** Eclipse, Visual Studio Code, GitHub, Git

## CERTIFICATIONS

- Certification in **JAVA Full-Stack Development Internship Certificate** – TAP Academy, Bengaluru.
- **Jan 2025 – June 2025**

## DECLARATION

I solemnly declare that all the above information is correct to the best of my knowledge and belief.
